#### B. Industry Overview

As of FY2023, the NBFC sector reached an impressive size of US\$ 326 billion, underscoring its influence in the financial domain. This is driven by rising demand for niche financial services provided by non-bank lenders, such as micro lending and small business financing. NBFCs have grown in importance in India over the past few years, becoming an important source of credit for businesses and consumers alike. Most NBFCs operate in lending, leasing, hire-purchase activities, and other allied financial services. Some of them also specialize in money transfer services, foreign exchange services, stockbroking and debt collection.

The NBFC industry in India is growing at an exponential rate with its impact becoming more visible across different sectors. As on 2024, the size of the NBFC sector is estimated to be around USD 326 billion. This is driven by rising demand for niche financial services provided by non-bank lenders, such as micro lending and small business financing.

The growth of the NBFC sector can be attributed to two key factors:

1. The demand for loans by the MSME (Micro, Small and Medium Enterprises) sector who finds it difficult to borrow from banks due to stringent eligibility criteria.
2. The increasing number of digital lenders offering alternative financing options to traditional banking institutions.

With more NBFCs entering the market, competition has also increased in terms of pricing and loan offerings. This has further spurred the growth of non-banking finance companies providing innovative products at affordable prices.

The NBFC-Retail asset under management (AUM), estimated at around ₹47 lakh crore as of March 2024, is expected to grow at a higher pace of 13-15% in FY25 vis-à-vis the previously estimated level of 12-14%, as growth in the unsecured loans segment, consisting of personal & consumption loans, unsecured small enterprise.
