MANAGEMENT DISCUSSION AND ANALYSIS

A. Indian NBFCs:

For a large and diverse country like India, ensuring financial access to fuel growth and entrepreneurship is a critical priority. Banking penetration continues to be low, and even as the coverage is sought to be aggressively increased through programs like the Pradhan Mantri Jan Dhan Yojana, the quality of coverage and ability to access comprehensive financial services for households as well as small businesses is still far from satisfactory.

In this scenario, the Non-Banking Finance Companies (NBFC) sector has scripted a story that is remarkable. It speaks to the truly diverse and entrepreneurial spirit of India. From large infrastructure financing to small microfinance, the sector has innovated over time and found ways to address the debt requirements of every segment of the economy. To its credit, the industry has also responded positively to regulatory efforts to better understand risks and to address such risks through regulations. Over time, the sector has evolved from being fragmented and informally governed to being well regulated and in many instances, adopted best practices in technology, innovation and risk management as well as governance.

There has been greater recognition of the role of NBFCs in financing India's growth in the recent past, even as global debates on systemic risks arising from non-banks have travelled to Indian shores and led to somewhat fundamental shifts in the policy environment governing NBFCs. Much public discussion and regulatory action later, clarity regarding goals and signposts of public policy have emerged. Skepticism about 'shadow banks' has settled to a more healthy understanding of the risks and rewards of a diverse financial system. For the industry, there are some costs associated with greater regulations, but the opportunity of being a well-regulated participant in the financial system is likely to outweigh the costs in the long run. We believe that some shadow zones persist in the regulatory landscape, but there is enough clarity for NBFCs to define their way forward.

B. Business Prospects:

Over the years, the NBFC sector has been gaining systemic importance. The same can be seen with the rise in share of NBFC assets as a percentage of bank assets, total number of NBFCs have come down from 51,929 in 1997 to 11,769 as on September 30, 2015 whereas the asset size has grown from Rs.75,913 crore as at end March 1998 to Rs. 1,610,729 crore at end September 2015.

C. Performance Review:

During the year your company had a total revenue of Rs 2.37 crores for the year ended March 2016, an increase of Rs 11.00 lacs from the previous year. Profit after Tax was Rs 31.00 lacs an increase of 29% in comparing previous years Rs 24.64 lacs.

D. Risk Factors:

NBFCs have witnessed a stress in asset quality during the last two-three years due to weak operating environment and economic downturn. Sectors which are directly linked to economic activities like commercial vehicle, construction equipment and infrastructure financing have witnessed sharp deterioration in asset quality. Gold loan NBFCs have also witnessed asset quality concerns on account of regulatory uncertainties, correction in gold prices and funding constraints.

As the economic slowdown and rising interest rates impacted NBFCs, regulatory changes such as fiscal, monetary policies, RBI restrictions have emerged as major areas of concern. Small & mid-size NBFC also faces liquidity crunch, because lack of refinance facilities and cost of funds.

E. Opportunities and Threats:

Over the last few years, the sector has seen rise in the number of large players which are backed by corporate houses / private equity investors who wish to participate in the credit growth of the country but faced stringent regulations and high entry barriers in Indian banking sector. Many of the large corporate houses and banks have also diversified into lending and lending related businesses focusing into niche segments. However, with a rise in number of players, the competition in sector has intensified and impact of stiff competition in the long needs to be observed

NBFCs faces high competition from public sector, private sector and foreign banks competing in similar markets.

F. Outlook:

Currently, NBFCs have been kept outside the purview of the SARFAESI Act. The NBFC sector has been requesting the extension of the benefits of the SARFAESI Act, which is long overdue. Though banks and public financial institutions enjoy the SARFAESI Act's benefits, the NBFCs are still outside the purview of this framework. Both the Throat Committee and the Mor Committee recognized this and recommended that NBFCs be given access to benefits under the SARFAESI Act. Several trade associations, along with industry players, have made representations seeking extension of the provisions of the SARFAESI Act to registered NBFCs. A reform in this area is critical as the SARFAESI Act empowers banks and financial institutions to recover their NPAs without court intervention. Given that the RBI's intent is to harmonize the regulatory framework for banks and NBFCs, coverage of NBFCs under the SARFAESI Act would go a long way towards creating a level playing field for NBFCs. NBFCs play an important role in the banking system by complementing banks, broadening access to financial services, and diversifying the sector. NBFCs should thus also be brought under the ambit of the SARFAESI Act to enhance investor confidence and ensure robust growth of the financial service sector.

G. Segment Wise or Product Wise Performance:

The company operates in only one segment i.e. Leasing and Finance. The company is mainly into Hire Purchase activity. Financing on HP basis auto rickshaw, Computers, Equipments etc.

H. Internal Control System and their Adequacy:

Your Company has adequate internal control system commensurate with the size and nature of its business.

I. Discussion and Financial performance with respect to operational performance:

The details of the financial performance of the Company are appearing in the Balance Sheet, Profit & Loss Account and other financial statements appearing separately. Please refer the Directors' Report for highlights.

J. Material Developments in Human Resources/ Industrial Relations Front:
